各位老師，各位同學，大家午安，我是 807 李若瑜，我是今天的英文小達人，今天，我要為大家播報的內容，是 Cooperation

People generally that working alone can prove a person's ability, but I believe that teamwork is more important than working alone in the morden society nowsday.

We often have some difficult problems for our ability, teamwork is especially important because these problems can be easily and quickly resolved, they can improve work effectually. For an example ,one chopstick can be broken easily ;breaking two chopsticks is more harder than breaking one. We are like chopsticks. As long as we work together, we will have unlimited power

and we will not be “broken”.

Cooperation is not only the concerted effort of strength, but also the wisdom of brainstorming and the mutual help in the process. So work together, and we will success easily.

Thanks for your listening. See you next time!
