

Don't Feed The Animals

播出時間：2023 / 4 / 26

星期三 中午 12：00

英文小達人：806 林榆芸

編輯老師：陳思恩老師

各位老師，各位同學，大家午安，我是 806 林榆芸，我是今天的英文小達人，今天，我要為大家播報的內容，是： Don' t Feed The Animals

On May 21st in Canada, a little girl was pulled into the ocean by a sea lion. Only a minute before, the family had been feeding the sea lion from a wharf. The girl sat down near the water and the sea lion grabbed her dress and pulled her into the water. The sea lion was not trying to kill her, it did not want to eat her, it probably just thought she had some food. The girl' s grandfather quickly jumped into the water and helped push her to safety. No one was hurt.

When we humans feed wild animals, it causes them to stop being afraid of us. Once they lose their fear, it doesn' t take them very long to realize that we are pretty weak and that they can just take whatever they want from us. They become aggressive towards humans and will attack if they feel we are keeping food from them. These animals may look cute and friendly, but they truly are not. They are wild animals with piercing claws, sharp teeth and lethal strength. There' s a reason for those 'don' t feed the animals' signs!

Thanks for your listening. See you next time!
